

Notice to Clear Image Eye Center Patients Regarding Dilation of Your Eyes

We would like to inform our patients that it may be necessary during the course of your exam to **dilate your eyes with drops**. In some people, the dilating drops cause blurred vision, light sensitivity, and inability to read or drive safely. These problems go away as the effects of the drops wear off. You should be careful walking, going up and down stairs, and driving if someone is not available to accompany you home.

It is for this reason that we recommend someone come with you at the time of your exam as a driver. Also, for your comfort, you may obtain dark glasses or inserts for your glasses at the reception desk.
